I. INTRODUCTION

In the year 2193, "Dinosaur" becomes a popular subject again. Scientists all work for making dinosaur revive. Nevertheless, they still lack of a special gene. This causes the dinosaurs they cultivate are all incomplete. Many countries then intend to buy dinosaurian fossil at high prices in order to get the gene. But it seems that it's not so easy.

No one can do anything to this problem until Dr. Crachi invents a "Time Space" machine in the year 2197.
